Read before making a new resolution

You will regret it if you don't.

Use the Help Page

If you have a question, consult the Help Page first. Most questions have already been asked and answers are available. Do not attempt to insert punctuation into Resolutions on your own; the Editor will do that for you in the PDF.

Follow the Content Guidelines

What content is allowed in the editor is regulated with the Content Guidelines. The guidelines essentially represent common sense.

Read Hint Texts

The Editor is full of helpful hints to guide you along the way. Often problems can be solved by carefully reading the hints on the page itself. Some buttons have additional information in tooltips.

Secure your Credentials

Keep all credentials you are given by the staff or the editor safe and secure. You are responsible for any data loss resulting from handling credentials insecurely. **Treat Resolution Tokens like passwords!**

Report Bugs

Please report all problems concerning this website. Including but not limited to software bugs, security issues, unexpected/unhelpful behavior and typos/grammar mistakes.

Contact IT-Management

If you still can't solve your problems after reading hint texts, the Help Page and asking your Chair or fellow Delegates/Participants, talk to IT-Management for advice.
